

# Screen Drying Cabinets

Screen Drying Cabinets are heavy duty floor standing units for the efficient drying of stencil screen frames. M.M.Parker supply an extensive range of sizes, specifications and options. Designed for the modern print studios; top quality finished screens are essential for high quality printing. Our screen drying ovens hold a constant temperature across the entire screen and speeds up the drying process at the same time.

## Vertical

Designed for water to drain from screens stored in an upright position after cleaning.

## Horizontal

Up to 20 frames can be stored flat, optimised for drying emulsion coated screens. A light table can also be fitted to the top to allow close stencil inspection.

## Standard Sizes

- *Model 1: 20" x 26"*
- *Model 2: 50" x 40"*
- *Model 3: 60" x 50"*
- *Model 4: 70" x 60"*
- *Model 5: 90" x 70"*
- *Model 6: 125" x 70"*
