

LED Exposure Units

LED UV Exposure Units are the latest technology for the exposure of direct screen stencils. LED Units offer very high quality exposure light spread producing consistent sharp results every time. Extremely fast exposure times are a major attribute offered by UV LED bulb technology and giving hard stencils.

Lightning quick exposures and sharply detailed stencils with drastically reduced power consumption

Available as a bench top model, free standing or as a Combi unit fixed on top of a screen drying cabinet. High quality steel modular construction.

LED UV Lamp Retrofit upgrade is available for converting an existing uv self contained unit

Available in a range of sizes:

Glass area: 1165mm x 730mm / 1245mm x 995mm / 1270mm x 1725mm.
